

Homeless COVID Risk Assessment (Mini-CHRISP tool) for non-clinical staff:

The purpose of this screening tool is to support non clinical outreach workers to:

- Screen for symptoms of Covid-19 and seek clinical support where appropriate
- Identify the individual's medical vulnerability
- Record this information appropriately on CHAIN
- This tool is based on government guidance (<https://www.gov.uk/government/publications/guidance-on-shielding-and-protecting-extremely-vulnerable-persons-from-covid-19/guidance-on-shielding-and-protecting-extremely-vulnerable-persons-from-covid-19#cev>) and for the sake of operational scale up we have limited our tool to those conditions that are prevalent AND likely to be understood by non-clinical teams.
- This initial 'screen' **does NOT** remove the need for comprehensive health needs assessment.

A. Covid-19 Symptom Screening		
1	Fever starting in last 7 days (<i>2 readings over 37.5C or self-reported fever if no thermometer</i>)	<input type="checkbox"/>
2	Breathing difficulties starting in last 7 days (<i>Too breathless to complete sentences</i>)	<input type="checkbox"/>
3	New dry and persistent cough starting in last 7 days	<input type="checkbox"/>
4	Change in sense of smell or taste in last 7 days	<input type="checkbox"/>
If yes to any of above you must phone the Find and Treat team on 020 3447 9842 to arrange testing Record this on CHAIN as a Timeline Event		

B. Clinical Risk Condition – Clinically Vulnerable		
If you are unsure about any whether the individual has any clinical risk factors then phone the Find and Treat team on 020 3447 9842		
5	60 or older	<input type="checkbox"/>
6	Asthma/COPD (please note below Q13 below if breathing condition is severe)	<input type="checkbox"/>
7	Heart attack or Stroke or Angina or has chest pain e.g. when walking up stairs	<input type="checkbox"/>
8	High blood pressure	<input type="checkbox"/>
9	Diabetes	<input type="checkbox"/>
10	Chronic Kidney problem e.g. Chronic UTI or Renal condition	<input type="checkbox"/>
11	Chronic Liver problems e.g. Hepatitis	<input type="checkbox"/>
12	Severe brain disorder (eg movement disorder/dementia/motor neurone disease)	<input type="checkbox"/>
13	Pregnant	<input type="checkbox"/>
If yes to any of the above then the individual is 'Clinically Vulnerable' and please direct to GP for clinical assessment. Record this on CHAIN under COVID-19 Risk Assessment. For PROTECT Accommodation		

Clinical Risk Condition – Extremely Clinically vulnerable		
If you are unsure about any whether the individual has any clinical risk factor then phone the Find and Treat team on 020 3447 9842		
13	Severe Asthma/COPD not controlled by medication or leading to hospital admission in the last year	<input type="checkbox"/>
14	HIV	<input type="checkbox"/>
15	Sickle Cell disease	<input type="checkbox"/>
16	Currently has cancer	<input type="checkbox"/>
17	Severe kidney problem (on dialysis/transplant list/letter from doctor confirming severe kidney problem)	<input type="checkbox"/>
18	In 2020, has been advised to shield by their GP	<input type="checkbox"/>
If yes to any of the above then the individual is 'Extremely Clinically Vulnerable' Record this on CHAIN under COVID-19 Risk Assessment For PROTECT Accommodation
