

Place-based partnerships

Partner	Ways of working
Neighbourhood/ borough based	<p>Working with other PCNs in a neighbourhood model with multiple agencies/sectors to provide wrap around support to patients and communities- link to Sutton case study.</p> <p>Read the Sutton case study for a practical example.</p>
Local authorities	<p>Working with statutory services across education, housing, employment on addressing the social determinants impacting health and wellbeing, opportunities for developing Health In All Policies Approach.</p>
ICS/ICB	<p>ICSs commissioning local community groups for proactive outreach e.g. health checks with social prescribing in pop up events and mobile units.</p>
Training hubs and workforce	<p>Training and supporting the workforce including creating peer support networks.</p> <p>NEL training hub webpage dedicated to the ARRS roles with information on training, resources and support.</p>
Secondary care services	<p>Strengthening of partnership at place and working on common objectives between providers e.g. supported discharge, frailty, mental health through joint clinics and MDTs supported by personalised care roles.</p> <p>Read the guide on Social Prescribing in Secondary Care.</p>
Community organisations/ VCSE sector	<p>Forming a VCES alliance- see below.</p>
